

## INDUSTRIAL YARNS

### PP CF YARNS

### HDPE & PP MONOFILAMENT YARNS

### PP TAPES

Polypropylene Multifilament & Tape Yarns, High Density Polyethylene & Polypropylene Monofilament Yarns, for:

- Webbing & braided ropes
- Sewing
- Filtration fabrics
- Nets
- Belts
- Slings
- Weaving

# ENHANCED INDUSTRIAL YARNS FOR TOP QUALITY WEBBINGS, ROPES & FABRICS

## PP CF YARNS

- **Polypropylene Multifilament Yarns** of high and medium tenacity
- Ideal starting material for **weaving, braiding, twisting, filtration fabrics.**
- **UV stabilised.**
- **Resistant** to acids and alkalies.
- **Highly flexible.**
- High quality twisting ensuring **excellent results in warping, weaving, braiding** and a **smooth performance in sewing.**
- **Precision winding** available for coarse yarns.
- Rich colour palette with **tested colour fastness.**

## HDPE & PP MONOFILAMENT YARNS

- High Density Polyethylene & Polypropylene Monofilament Yarns of **high and medium tenacity.**
- Ideal starting material for **weaving, braiding, twisting, filtration fabrics.**
- **Wide denier range:** 150 to 800.
- Shape: **Flat and round.**
- **UV stabilised** or not.
- **Resistant** to acids and alkalies.
- **Highly flexible.**
- High quality spinning ensuring **excellent results in warping, weaving and knitting,** especially for the filtration fabrics production.
- Winding on **bi-cones and spools.**
- Rich colour palette with **tested colour fastness.**

## PP TAPES

- Manufactured from **extruded polypropylene film.**
- Ideal for **sewing and weaving.**
- **Denier range:** 1,000 - 30,000.
- **Fibrillated** or not.
- **UV stabilised.**
- **Easy to splice.**
- **Chemical resistant.**
- **Colours:** Natural, Blue, Black, Green, Beige.  
Other colours available upon request.
- Available in **standard spools** of 5 - 10 kg.
