 **THRACE GROUP**

A WORLD OF MATERIALS & SOLUTIONS

PACKAGING SOLUTIONS TAILOR-MADE TO YOUR NEEDS

Thrace Group has the specialist know-how to offer you **tailor-made packaging** products that best serve your individual business goals.

Injection Moulding

Food grade PP

(Food & Non-Food)

100% Recyclable

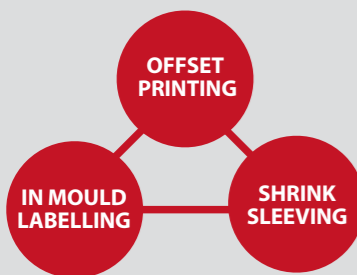

Rich colour palette

KEY FEATURES:

- A wide range of **Shapes Volumes and Dimensions** upon request
- **High Performance** - Fit For Purpose
- All available decoration methods

LOOKS THAT MAKE A DIFFERENCE

Thrace Group customised packaging solutions raise your branding potential, taking advantage of **all the available decoration techniques:** state-of-the-art In Mould Labelling for excellent photographic print quality, premium Shrink Sleeveing for impressive looks, 8-colour Offset Printing for value-for-money appeal.

If outstanding decoration is one of your customisation priorities, trust Thrace Group.

INNOVATE AND STAND OUT ON THE SHELF

Taking full advantage of the latest advances in **lenticular in-mould labelling**, Thrace Group containers can become a first-class marketing tool for your brands. With looks that change when viewed from different angles, **our 3D-labelled packaging products** feature unique eye-catching properties and **offer an unparalleled potential to promote brands.**

SC200

OFFER EXTRA BENEFITS TO YOUR END-USER

Packaging serves content, but also the convenience and aesthetic choices of the end-user. Thrace Group CB1 container offers a **unique serving proposition** by preserving the "looks" of its content, i.e. puddings or jellos.

By pressing two plastic lugs at the bottom of the cup, the end-user can serve contents at the desired form and shape.

CB1

TREAT YOUR PRODUCTS RIGHT

Demanding products, like Ready-to-Eat Meals (MREs), require **special packaging treatment.** Our bespoke Art 800 retort rigid container for soup is purposely designed to **withstand high temperatures** during the processing phase of its content (90°C for over 10 min). Due to its high endurance, it also ensures a **longer shelf-life** for the final product.

800

CUSTOM-MADE PACKAGING ON SPECIFIC CUSTOMER NEEDS

The brief

Redesign yogurt split-cups to increase service-trolleys' capacity for Aegean Airlines (a Star Alliance member).

The solution

A new split-cup design offering weight and volume optimization, ready for production in 12 weeks.

SP2

The brief

Develop a cost-efficient and sustainable ice-cream container for Nestlé, with two compartments for toy placement.

The solution

An innovative 100% recyclable design, high appealing but also safe for kids. Manufactured at minimum production phases to secure lower costs.
