## **"SAFE SMILE" FACEMASK: FOR CLEAR SMILES!**

It is commonly known that the **use of mask is essential in our daily lives**, for **our protection** and **the protection of those around us**. However, in certain cases wearing a mask can make communication difficult. Characteristic examples are healthcare and business industry, educational institutions, food services, tourism and especially people with hearing impairments, deaf or hard of hearing (SDH).

With over **30 years of experience** in the production of medical & hygiene PPE technical fabrics, **Thrace Group provides solution** by introducing the new, innovative surgical facemask **"Safe Smile" with clear window**.

## **EASY COMMUNICATION WITH CERTIFIED QUALITY**

The single-use "Safe Smile" surgical face mask is specially designed to **facilitate immediacy and allow face-to-face communication**, while providing high protection.
